

#### **449: ENZYME GREASE TRAP AND DRAIN ADDITIVE**

**DESCRIPTION:** Drain Treatment 449 is a stabilized liquid blend of nonpathogenic enzyme protein genetically engineered specifically for breaking down fatty soils, such as, frying fats, salad oils, butter, fat-based sauces, soup fats, and even lipstick. The fats and triglycerides that build up in drain pipes and grease traps are biologically hydrolyzed making them water soluble, which eliminates slow draining and clogged grease traps. Drain Treatment 449 also improves leach field performance, and is compatible with the decomposition bacteria present in septic and municipal waste treatment systems. Drain Treatment 449's convenient liquid form is readily adaptable to automatic feeding systems. Drain Treatment 449 does not contain any harsh chemical that would be harmful to pipes, or personnel. Drain Treatment 449 is an example of " Creative Chemistry For Safer Environments".

#### **PRODUCT PROPERTIES:**

**Appearance:** Clear yellow liquid, odor nil.

**Specific Gravity:** 1.003

**pH(1%):** 7.0-8.0

**USE INFORMATION:** Use of an automatic timed delivery chemical feed system is recommended for maximum economy and effectiveness. 2 to 6 ounces of Drain Treatment 449 per working hour added directly to the grease trap is the recommended starting dose. A double dose shortly after the work day ends to give undisturbed enzyme exposure to the grease trap is recommended. Once the drain system is relatively clean dosage may be reduced to a maintenance level, usually at about half the original dose. Initial dosage should be based on the grease load of the drain system.

**PRECAUTIONS:** May cause irritation to the eyes upon contact. **\*\*AVOID CONTACT\*\*** Prolonged contact may cause skin irritation. When handling, wear proper personal protective equipment as indicated by the accompanying OSHA material safety data sheet. If accidental contact is made immediately flush contacted area repeatedly with cool water. If irritation persists call a physician for treatment. If accidental eye contact occurs flush eyes with cool water and seek the immediate attention of a physician. Launder contaminated clothing before re-use. Wash thoroughly after handling. **FOR COMMERCIAL USE ONLY!**

**PACKAGE:** 15gal drums, 5 gal. pails
