

793 : HD LIQUID ALKALINE CLEANER

DESCRIPTION: 793 is a blend of alkaline builders, chelates, dispersants, and low foaming detergents balanced for maximum soil penetration and dispersion. 793 may be used in single, or multi-stage spray washers, ultrasonic cleaning units, C.I.P. cleaning applications, as well as conventional hot tank cleaning operations. 793 effectively penetrates heavy soils and removes rust and surface scale from ferrous metal components. 793 is also suitable for use on cast iron, copper, and some brass. 793 is not recommended for use on aluminum, zinc, or metal diecast parts as severe etching may occur. 793 finds uses ranging from engine rebuilding to C.I.P. cleaning of refineries, tank descaling, as well as, many other industrial cleaning applications. 793 will not adulterate food in federally inspected meat, poultry, and egg processing operations when followed by a potable water rinse. The liquid form of 793 offers handling convenience and employee safety when compared to conventional powders.

PRODUCT PROPERTIES:

Appearance: Dark brown liquid.

Specific Gravity: 1.30

Flash Point: None

pH(1%): >11.0

Phosphate Content: None

Biodegradability: 100% biodegradable by present standards.

USE INFORMATION:

Concentration: 2-20% by volume depending upon degree of soil.

Temperature: 130-200°F.

Contact Time: as available

PRECAUTIONS: May cause severe chemical burns and irritation to the skin and eyes upon contact. ****AVOID CONTACT**** When handling, wear proper personal protective equipment as indicated by the accompanying OSHA material safety data sheet. If accidental contact is made immediately flush contacted area repeatedly with cool water. If irritation persists call a physician for treatment. If accidental eye contact occurs flush eyes with cool water and seek the immediate attention of a physician. Launder contaminated clothing before re-use. Wash thoroughly after handling. **FOR INDUSTRIAL & COMMERCIAL USE ONLY!**

PACKAGE: 55 gal. drums

Issue date : 1/17/12
